## PLAN OF OPERATIONS

### (For Operations Proposed Under the 43 CRG 3809 Regulations)

**Instructions to Claimant / Operator:** Circle "Notice" (above) if proposed mining activity within the project area will disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if disturbance will exceed five (5) acres during the calendar year or if operations are within an area described in 43 CRF 3809.1-4 (b). Complete the form in as much detail as possible. Additional sheets may be used if necessary. Use maps or sketches where appropriate (maps or sketches are required for submitted plans of operations and are recommended, but not required for submitted notices). A review of the 43 CFR 3809 regulations should be conducted prior to submission to the appropriate BLM office.

See Proposed Operations Page 2

**Date Operations are Proposed to Commence as Outlined in this submittal - September 1, 2003:**

**Proposed Operations:** Describe the entire proposed operations, including all surface disturbing activities (road constructions, drilling, trenching, backhoe, and bulldozer exploration, mining waste disposal, etc.) List all mechanized earth moving equipment to be used during the operations and state if any explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing existing surface disturbances, structures, facilities, etc., and the location and size of areas where surface disturbance are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 AC. = 43, 560 sq. ft.)

**Access Routes (Existing and Proposed)**

- (1) **Fig. 15** (route of access to quarry)
- (2) **Fig. 16** (topo showing existing access routes)

**Proposed Operations** (disturbance over 5 acres)

- (1) **Fig. 3** (equipment & facilities in place)
- (2) **Figs. 11 & 12** (maps of facilities in place)
- (3) Photos of disturbance
- (4) **Exhibit 14** (excavated overburden)
- (5) **Fig. 13** (topo of disturbed areas and access routes)
- (6) Description of proposed disturbances.

**Proposed Completion Date:** **December 1, 2003**

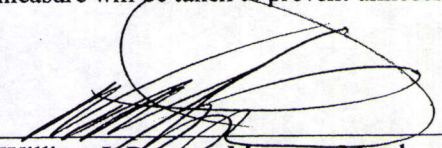

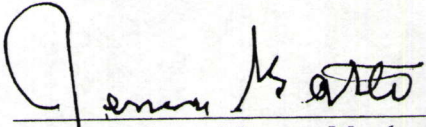

**Proposed Reclamation:** Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of non-operation is anticipated.

- (1) Topsoil from area saved for reseeding or filled waste dump.
- (2) Off road activity will be kept to a minimum.
- (3) No chemicals will be added to the process water used in slate.
- (4) Evergreen trees (junipers) encountered during striping will be left in place.
- (5) Excavation will be done to minimize soil erosion.

**See Proposed Reclamation, Declaration, Continued Page 3**

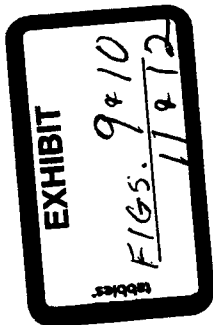

I hereby declare that I, or persons I have authorized to do so, will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3 (d) and that reasonable measure will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Notice to Claimants/ Operators:

1. A notice submitted in relation to the 43 CFR 3908 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 days before commencing operations. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a plan and will notify the claimant/operator of the status of the plan within 30 days of receipt.
2. Approval of a plan of operations does not constitute certification of ownership to any person named as claimant/operator herein, nor does approval constitute recognition of the validity of any mining claims named herein.
3. Information and data submitted specifically identified by the operator as containing trade secrets of confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the note of plan of operations. This information will be filed separately by the BLM and will not be available for public inspection.
4. Failure of an operator to file a notice under 3809.1-3 or a plan of operations under 3809-4 will be subject to operator, at the discretion of the authorized office, to being served a notice of non-compliance or enjoined from the continuation of such operations by court order until such time as a plan or notice is filed with the authorized officer.

Overburden excavated from atop the Spectrum slate deposit by the Furukawa payloader was deposited on the property in long berms, in waste dumps, and in piles. The dimensions of these waste deposits were measured and the total volume and tons of stripped overburden were calculated. The waste deposits and their corresponding volumes and tonnages are as follows:

<u>Type Waste Location</u>	<u>Volume</u>	
	<u>ft3</u>	<u>yds3</u>
E-W Berm S. side of public rd.	22,758	843
E-W Berm N. side of public rd.	3,531	131
N-S Berm E. property boundary	26,304	974
Dump W. end of quarry (E. side)	30,784	1,140
Dump W. end of quarry (W. side)	13,195	489
Dump E. end of quarry (N. side)	5,184	192
Totals:	101,756 ft3	3,769 yds3
